ABOUT ME

I am a graduate student with good knowledge of programming languages. I enjoy learning new skills independently and always strive to improve myself. I believe that keeping up with new technologies is important for creating better and more effective solutions.

EDUCATION

Bachelor of Information Communication Technology (Honours), University of Jaffna (2020 – 2025)

GCE Advanced Level, Vilayaya National School, Aralaganwila (2015 – 2018)

PROFESSIONAL EXPERIENCE

IBMC Lanka (Pvt) Ltd. **Sep 2025 - Present**

- Worked as a Graphic Designer and WordPress Web Developer, focusing on design, website development, and maintenance.

Creative-2 (Pvt) Ltd. **Feb 2024 - Aug 2024**

- I worked as a UI/UX Designer and Frontend Developer, focusing on UI design and responsive web development using Adobe XD, Figma, HTML, CSS, and JavaScript. I also supported WordPress setup, basic SEO checks, feature testing, and maintained consistent design and branding across projects.

CodSoft Virtual **Nov 2023 - Dec 2023**

- This was an online UI/UX Designer internship at CodSoft.
- I worked on different UI/UX design projects and completed them within the given timelines.

CERTIFICATIONS 2015 - 2024

PROJECTS 2023 - 2025

- **Cleaning Staff & Schedule Management System (Website)**

Two-person university exhibition project for ICT Expo 2023; we researched their management and working schedule process, and developed a website-based system to replace the manual method.

- **Taffys World Lanka Website**
- **General Electrik Website**
- **Aura Toure WebSite**
- **Ceylon College of Physicians Website**
- **Sri Lanka Society of Nephrology Website**
- **Opara Organic Website**
- **IBMCEduHub website**

During my internship, I worked on several company websites using frontend technologies like HTML, CSS, Bootstrap, and MySQL. I also worked on WordPress websites using themes and plugins, and was involved in some website maintenance tasks as well.

- **ZestRice Restaurant WebSite**
- **luxeloom furniture WebSite**

I individually developed a website using React JS, Node.js, and MongoDB, and have done more websites like this while enjoying exploring new technologies.
